**New Seminar! California Supplemental Exam Seminar Presented by Dean Lee!
This is a two-day seminar. Limited to 20 people! Sign up soon!**

Whether you are a first-time test taker or you are taking the test again, Dean Lee's CA Supplemental Exam Seminar can assist in passing the CSE. Dean's two-day seminar is structured as a mock examination with a subsequent review of answers. Dean focuses on the examination experience and reviews how to attack questions, break them down and answer them correctly.

During day-one, you will gauge the level of your preparation and test-taking ability as Dean helps you to analyze your areas of weakness and how to prioritize and focus on the study materials. After the first day, you will have time to hone in on your problem areas before returning the following week. On day-two of the seminar, Dean will help you further understand test-taking methods one-on-one and gauge where you need to focus the remainder of your studies.

Testimonials:

"I'd definitely recommend Dean Lee's seminar. His insight into breaking down the questions made me re-evaluate how I was answering and he also coached on confidence and delivery." -Beth O.

"If this is your first time taking the test I really recommend Dean Lee's Seminar. It is like no other seminar. You will walk out of his seminar with a real feel for how the test is administered, not to mention direction on how to study". -Wayne S.

"I strongly recommend Dean's seminar. I just took my exam last week and if it were not for his seminar my answers would have been way out on left field somewhere. I was prepared for a lot of the questions asked because I learned what type of answer they want from candidates." -Edgar S.
